## **DETAILED ACTION**

### ***Rejections Repeated***

1. The 35 U.S.C. 103(a) rejection of claims 19-20,32-33 over Arakawa et al. has been repeated for the reasons made in office action 9/3/2004.

### ***Response to Arguments***

2. Applicant's arguments filed 12/3/2004 have been fully considered but they are not persuasive.

In response to applicant's argument that Arakawa et al. teaches away from the use of such a hole in the discussion of the background of the invention, Arakawa et al. teaches that it is notoriously well known in the art at the time applicant's invention was made to provide a first leg of adhesive tape to stick to a third leg of the adhesives tape with an adhesive by forming a penetrated hole at the central portion of the leg (col. 1 lines 37-39) and even though there are problems that the adhesive is exuded through such penetrated hole to make rewinding impossible, applicant does not claim that the backing sheet is rewound. Therefore, Arawaka et al. does not teach away from forming a penetrated hole in the central portion of the leg since the problems that come with the hole deal with rewinding the adhesive tape.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1745

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
